

PIERCE PACIFIC MANUFACTURING, INC.

THE CHANGE DOESN'T GET ANY EASIER.

Pierce Pacific Hydraulic Winch Systems provide the versatility to yard timber ranging from large second growth to thinnings either uphill (carriage) or downhill (highlead). Easily moved from loading to yarding, Pierce Winches are rugged and dependable performers.

Whether it's a single winch used for close-in cleanup work or a pair of high performance, high capacity winches capable of full scale yarding jobs, Pierce Pacific systems add to the ability of your machine to make you money.

THE PIERCE PROMISE

Like all custom-built Pierce products, once it's delivered we stand by it all the way. Our unparalleled product support and customer service includes onsite training and troubleshooting, stocked warehouses, after hours pickup and emergency overnight delivery. Our professional service technicians are at your service 24 hours a day, every day, to make sure your jobs stay on track and on schedule. Quality from the drawing board to the bottom line. That's what "Pierce built, Pierce backed" is all about.

GET A PERFECT FIT WITH FINITE ELEMENT ANALYSIS

Finite Element Analysis (FEA), combined with computer-aided motion analysis software, allows for fully associative drafting which assures a precise fit of every part and component we fabricate. Simply put, Pierce is able to design, "build", assemble, simulate and test forestry cab structures, machine guarding and winch platforms before any manufacturing takes place. And, as an Allied Equipment Manufacturer, our engineering team works directly with excavator manufacturers to assure complete and error-free integration of all OEM/Pierce equipment.
